

APACHE SOLR™ 5.1

Solr is the popular, blazing-fast, open source enterprise search platform built on Apache Lucene™.

Learn more<sup>✓</sup> about Solr.

Solr is highly reliable, scalable and fault tolerant, providing distributed indexing, replication and load-balanced querying, automated failover and recovery, centralized configuration and more.

Solr powers the search and navigation features of many of the world's largest internet sites.

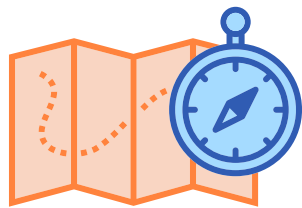

## Features

Hundreds of features make Solr incredibly versatile.
